

Celebrating 15 Years of Connecting People with the EU Blue Card

This year marks a significant milestone as Blue Card Network celebrates 15 years of success in providing specialized services for non-EU professionals seeking employment within the European Union. Over the past decade and a half, we have built a reputation as a trusted partner for professionals and employers alike, with an emphasis on helping the professional obtain the EU Blue Card.

Non-EU Professionals

At the core of our service is an in-depth understanding of the EU Blue Card program, a work and residency permit designed especially for highly skilled and educated professionals from non-EU countries. This permit is an essential tool for employers seeking to recruit international talent, but navigating the requirements can be challenging. The conditions for obtaining a Blue Card vary by country, as each EU member state has its own specific regulations, such as salary thresholds, contract durations, and job qualifications.

This is where we add tremendous value. We are a key intermediary between employers and candidates, ensuring that both parties meet the necessary criteria for a successful Blue Card application. With over 15 years of experience regarding the EU Blue Card application process and a huge Network of connected employers, professionals have the very best odds and options to secure employment in the European Union.

Talent Meets Opportunity

Employers benefit from direct access to this pool of pre-qualified talent, allowing them to search for candidates that meet their specific needs. Once a match is found, the employer can reach out directly to the candidate to begin discussions. This approach has been highly successful over the years, facilitating quick and efficient connections between skilled non-EU professionals and European companies.

A Proven Concept for Success

The past 15 years have shown that the Network works. As we celebrate this milestone, we look forward to continuing to provide our service, helping even more non-EU professionals find rewarding careers in the European Union based on the EU Blue Card!
