

EU Blue Card Network

- ✓ Are you a non-EU national?
- ✓ Are you educated or skilled?
- ✓ A future in Europe appeals to you?

The countries of the European Union face a shortage in skilled and educated people. The EU Blue Card is an EU-wide initiative that allows its holder to live and work in an EU member state and includes an outlook on permanent residency.

Advantages of the Blue Card:

- Permanent residence perspective
- Entitlement to a series of socio-economic rights (e.g. unemployment benefit)
- Highly favourable conditions for family reunification
- Free movement within the Schengen area.
- Freedom of association
- Working and salary conditions equal to nationals
- Work-and residence permit in one.
- Apply from any country. Applicants do not have to be present in Europe.

The EU Blue Card Network connects you with EU employers and provides key assistance in securing the blue card! Visit our website and start your profile!

You are welcome!
